

ALLINA HEALTH LABORATORY

Memo

To: Allina Health Laboratory outreach clients
From: Allina Health Laboratory outreach services
Date: **March 27, 2020**
Re: **Patient Service Center Hour Changes**

Due to the Stay At Home Executive order that the Governor of Minnesota declared effective Friday, March 27, 2020, at 11:59 pm, we will be decreasing our patient service center hours. These new hours will start Saturday, March 28, 2020, and will stay in effect until further notice.

In an effort to protect the health of patients and staff, we ask that only patients and those dropping off specimens with urgent testing needs present to our patient service centers during this time.

People presenting at the PSC outside of the posted hours will be asked to call the lab upon arrival. Any patient who is ill, or showing symptoms of illness should not present to our PSC's.

Please review the updated patient service center hours listed in this communication.
