Re: Supply catalog issue

Due to a glitch in the website this morning, any supply orders placed using our electronic supply catalog between 0630 and 1030 were lost. The issue has been resolved at this time, but there is no way to recover the lost data. Please share with any of your staff/sites who may have placed orders that they will need to place a new order for the items needed.

If you have any questions, please contact Client Services at (612) 863-4678 for assistance.
