

**Supply Table 2**  
**Microbiology and Virology collection swabs**

| Test name                                     | Test # | Collection container/swab   |
|---|--------|---|
| Strep A PCR                                   | 12796  | Eswab Transport System (Purple) or<br> |
| Throat, rapid Strep A with reflex             | 6599   | Strep Collection kit<br>               |
| Influenza A/B PCR                             | 8810   | Influenza PCR Collecton Kit<br>        |
| RSV, Rapid Antigen                            | 6533A  | Eswab Transport System (Blue cap)<br>  |
| Bordetella Pertussis by PCR                   | 13690  |   |
| Sinus Only-Aerobic Culture                    | 12423  |   |
| Urethral Culture, Stain                       | 625    |   |
| Wet Prep Genital (Trich, yeast, clue cells)   | 6619   | BBL CultureSwab<br>                  |
| Aerobic Bacterial Culture, Stain              | 12423  | Eswab Transport System (White)<br>    |
| Anaerobic culture (swab collection or tissue) | 6554   |   |
| Fungus Culture, Other Source                  | 6579   |   |
| Gram Stain                                    | 6584   |   |
| KOH Prep - Other Source                       | 6524   |   |
| MRSA Culture                                  | 6578   |   |
| Neisseria gonorrhoeae Culture                 | 6582   |   |
| Nocardia Culture, Stain                       | 12425  |   |
| Rectal Strep Culture                          | 6525   |   |
| Semen Culture                                 | 6529   |   |
| Staph aureus Culture (MSSA + MRSA)            | 12427  |   |
| Throat Culture                                | 6563   |   |
| Vaginal / Cervical Culture, Stain             | 6565   |   |
| Vaginal Non-OB Strep Culture                  | 12426  |   |
| Vag/Rectal OB Strep PCR (GBS)                 | 14203  |   |
| VRE Culture                                   | 6550   |   |
| Yeast Culture                                 | 6548   |   |
| Anaerobic culture - fluid only                | 6554   | Remel A.C.T. I<br>                    |
