

TEST CHANGE

NOTIFICATION DATE: May 27, 2021

EFFECTIVE DATE: June 1, 2021

HPV HIGH RISK 6595/87621.0

QUICK REFERENCE

Effective June 1, 2021, there will be a reporting change for the HPV high risk (6595/87621.0) assay.

DETAILS

With this change, with any orders for HPV high risk PCR received on or after June 1st, the results will include discrete results for HPV type 16, HPV type 18 and HPV other high risk types. Currently a single positive or negative result is reported for all high risk HPV types.

There will be no change to CPT code or pricing associated with this reporting change.
