

Test changes

Test name: Von Willebrand Factor multimers

Test #: 994/LAB994

Notification date: December 11, 2019

Effective date: December 17, 2019

EXPLANATION

The Von Willebrand Factor multimer assay, referred to LabCorp Esoterix (500148), is being built with a unique test ordering code and will no longer require use of the Miscellaneous send out (MSO) test code.

DETAILS

The Von Willebrand Factor multimer assay is useful as an aid in the determination of Von Willebrand factor (VWF) deficiency subtype 6-9. This test is a reflex to Von Willebrand screen when there is a decrease in the VWF:RoC and/or the VWF:Agn results, and is also available as a standalone order.

Effective December 17, 2019, this assay will be orderable using the test number 14206.
