

Excellian non-interfaced charges resource

There are some occasions where charges for laboratory testing referred to Allina Health Laboratory will not cross the interface, and thus not post automatically on HARs. Charges that are not interfaced have an accession in the client portal, or on the client notification, that starts with RQ or B. These accessions should be reviewed and the corresponding charges posted manually.

- RQ is a charge to a non-interfaced test.
- B signifies a reflex or additional charge that needs to be manually posted.

In the past, emails were sent with notifications to post the reflex charges. To comply with a reduction in sending PHI via an email, Allina Health Laboratory will no longer be sending emails for the reflex charges as these charges should now be easily identified in the portal.

Accession ID's beginning with C or AC will file automatically, and would not require review.

Ordering Client	Date	Accession ID	Patient Name	Test ID	CPT Code	Description	Charges	
TEST	05/01/18	C123456	NORMAL, CHARGE	19191919	00000	TEST CHARGE	1.00	Corresponding charge is filed automatically on the invoice.
TEST	05/02/18	RQ789456	NOT, INTERFACED	19191919	00000	TEST CHARGE	1.00	These would need to be reviewed as they are not interfaced (<i>no charge</i>)
TEST	05/03/18	AC456123	LATE, CHARGE	19191919	00000	TEST CHARGE	1.00	These should <i>not</i> need to be reviewed as the corresponding charge filed automatically on the invoice. These are generally late charges that had to be manually added only on the Allina Health side.
TEST	05/04/18	B654321	MANUAL, CHARGE	19191919	00000	TEST CHARGE	1.00	These would need to be reviewed as they are manually added charges, not interfaced. Example would be a reflex test.
