Re: Formalin Supply Changes

As the current stock of formalin manufactured by Cardinal is depleted, Allina Health Laboratory will transition to formalin manufactured by Medline. Formalin fulfillment will remain orderable in our Supply catalog as an “each” quantity, however the number of vials included will be different.

The Supply catalog will be updated with new photos and new box quantities.

If you have any questions regarding the transition, please contact Client Services department at (612) 863-4678.
