

THROMBIN TIME
510/85670.2

Quick Reference

Due to a change to a new lot of coagulation assay reagent, effective June 21, 2022, the reference range for the Thrombin time assay (510/85670.2) will be changing.

Change to a new lot number requires thorough validation testing to establish a new mean normal reference value. This process occurs approximately every 12 months when a new lot of reagents is made available by the instrumentation reagent vendor.
